

ACCOUNTING
EVOLUTION

16th June, 2015

To whom it may concern,

I approached Colour Smart Solutions because Bryan was a client of mine at the time and I liked the way that he was operating his business. I felt that if he gave as much time to his product as he did to running his business then I was going to get a product that suited us and provided answers to all the issues that we were experiencing.

Colour Smart Solutions helped me by installing a product that ticked all the boxes that were necessary for running our business. With the changing nature of accounting and more reliance placed on scanning/printing it was imperative that we had a product that would grow with us.

The result was instant success. Our scanning /printing capacity increased dramatically allowing us to process work faster and therefore cutting down on overheads.

One thing I liked was their attention to our needs. Not only did it cover what we felt we needed it also pointed out lots of areas that we hadn't thought of.

I found the experience easy.

I would recommend Colour Smart Solutions to people who need a vast improvement in their scanning and copying solutions. We have saved so much time (and money) by upgrading through Colour Smart that I can spend more time on working on my business rather than in my business.

Should you have any queries regarding the above, please do not hesitate to contact the office.

Yours sincerely,

Adrian Sibbick
Director
