

26 October 2015

We approached Colour Smart Solutions for printer recommendations for our small business. Looking at the specific requirements and after understanding our needs, their recommendation of the Konica Minolta has worked very well for us. It is a fast, efficient and high quality printer. Bryan Murphy and his team have provided us with professional before and after sales support always ensuring that we are satisfied. Our experience in dealing with Colour Smart Solutions has been very positive and we would be happy to recommend their services on to others.
