Dear Sir/Madam,

This letter is a testimonial to Colour Smart Solutions.

I approached Colour Smart Solutions because I was advised of their strong reputation by another member of staff.

Colour Smart Solutions helped me by organizing the whole transition from our old printer to the new printer very quickly and smoothly.

The result was we have a new printer which is more up to date than the old one and works more efficiently as well as costing less than what we were paying previously.

One thing I liked was how customer service focused they are. They are always on hand to help if we are unsure about anything.

I found the experience very easy and care free.

I would recommend Colour Smart Solutions to people who need a printer that manages multiple tasks and of a high capacity.

Yours Faithfully

Victoria Smith

Personal/Administration Assistant
