

## Juncture IT, Testimonial – Coloursmart Solutions

After working with several print partners over the years, we needed to find one whose work ethic, focus on delivering great customer service and professionalism matched the goals we set ourselves for our clients.

Bryan and his team at Coloursmart, have delivered time and again in producing cost effective print solutions to our clients. We have no hesitation in recommending him to anyone who requires print maintenance contracts and scanning solutions.

In the last year since Coloursmart has become Juncture IT's chosen print partner, we have seen a great up take in their services from our client base. Usually resulting from just one or two meetings in which Bryan was able to demonstrate the cost effective and time saving maintenance plans that he can and has put in place.

If you're in a business that uses their printer regularly, than it should be an absolute 'no brainer' in having Bryan come out to discuss ways that he can put in place a printing and scanning solution for you.

As a business in a very competitive environment, we look forward to a long enduring partnership with Bryan and his team at Coloursmart.

Reyad Homaidan.
