Colour Smart Solutions Testimonial

I approached Colour Smart Solutions because at the time we were using 2 separate small printers – an A4 and an A3, we had to scan to USB and we were paying a lot for Ink.

Colour Smart Solutions helped me by providing us advice on the best option for us to upgrade to a 'real' office printer and also a cost comparison of our current printers and ink etc versus a lease printer and per page printing cost.

The result was we now have fantastic Konica Minolta Bizhub MFP printer that functions brilliantly and has saved us heaps of time!

One thing I liked was, even now that we are signed up for 5 years, they are still super helpful if we ever need anything or any support with our machine.

I found the experience was super helpful. As I didn't know anything about the process Bryan Murphy was happy to explain everything fully to me and answer any questions.

I would recommend Colour Smart Solutions to anyone who needs office photocopier/printers.

Kind Regards,

Hannah Ward,
