To whom it may concern

I approached Colour Smart Solutions because I was referred to them by our Project Manager when we were completing the fitout of our new office in the iconic Australia Square.

Colour Smart Solutions helped me by taking the time to get to know our business needs and then presenting the best solutions and latest options to us to choose from. Bryan was comprehensive and prompt in all communication with us and owned any issues that did arise during installation until they had been resolved.

The result was flexible solutions that will grow with us as we grow, they came in at a competitive price point and they have excellent ongoing support.

One thing I liked was their attentiveness and taking the time to understand what we need as well as their commitment to ongoing service. We have a wonderfully transparent business relationship.

I found the experience left me with little work to do because they did it all for me.

I would recommend Colour Smart Solutions to people who need to upgrade their office equipment to something a bit faster or efficient or simply need new technology to cope with their growing print demands.

Sincerely,

Shelley Breen  
General Manager
