Testimonial

Dear Oliver,

On-Market BookBuilds would like to thank Bryan Murphy and the team at Colour Smart for their assistance and support in implementing and managing our printer solution.

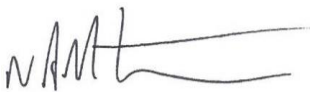

As a small business, we approached Colour Smart as we were in dire need of a better printer solution. We were running on a small B&W laser printer and spending far too much on external colour printing.

Colour Smart provided a number of printer options, and guided us to the right solution for our business. The installation was not straight forward, but at no time did Colour Smart or their installation team give up on making sure it all worked seamlessly.

Operationally, the printer has been great. Perfect colour printing, fast B&W, and all at a very reasonable cost. On top of this new print cartridges delivered just as we need them.

Colour Smart has saved our business money, time and stress and I would recommend them to any business.

Kind regards

A handwritten signature in black ink, appearing to read "Nick Motteram". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Nick Motteram
