22nd July, 2015

To Whom It May Concern,

We approached Colour Smart Solutions because I have utilised Bryan's services in the past, and felt they could deliver the appropriate solution for our business. Colour Smart Solutions worked closely with the business to truly understand our requirements and to ensure we received the best possible solution. As a result, document scanning time was halved, significantly reducing less profitable administration time.

The solution also provided us with ample capacity to accommodate our 5 year growth plan and to deal with changing business demands. I especially appreciated the timely and relevant communication during the implementation which reassured me and the business that we were in safe hands.

Overall the implementation was delivered on time and budget and met all our quality expectations and the support has been second to none. I would recommend Colour Smart Solutions to any business that is looking for a trusted partner who not only understands their business operations but will also deliver the maximum ROI for your managed print solution.

Sincerely,

Leigh Webster
Infrastructure Manager
