

## **Testimonial for Colour Smart Solutions**

I approached Colour Smart Solutions because they were referred by a trusted business partner.

Colour Smart Solutions helped me by providing the right advice re an MFD for our new office.

The result was an MFP that more than met our needs and has enabled us to expand.

One thing I liked was their personalised service.

I found the experience straight forward and hassle free

I would recommend Colour Smart Solutions to people who need personal service, competitive pricing and appropriate printing solutions for their business.
