

Quorum Business Lawyers
Testimonial

I approached Colour Smart Solutions because I needed a cost effective and professional solution to my printing, copying and faxing needs.

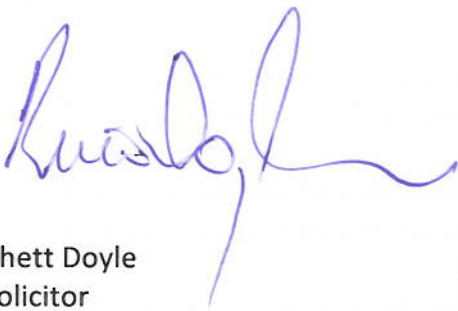

Colour Smart Solutions helped me by providing the best multi-function machine for the job along with professional technical service and friendly customer care.

The result was that I can concentrate on running my law practice without having to be concerned with the day to day running of the office.

One thing I liked was their automatic ordering of printer consumables (toner).

I found the experience very professional from the supply of the machine to an easy to understand monthly account.

I would recommend Colour Smart Solutions to people who need affordable and flexible printing/copying services with minimum fuss.
