To whom it may concern,

TESTIMONIAL FOR COLOUR SMART SOLUTIONS

Colour Smart Solutions came recommended to us by our IT providers. This is the first time we have leased a large multi-function printer instead of purchasing outright and the experience has been a positive one.

The printer recently required some attention from the manufacturer to fix an error. Some “communication issues” with the manufacturer arose and as soon as Colour Smart Solutions were informed of the problem they acted immediately. I was impressed with the way they personally attended our offices at short notice and then dealt with the manufacturer directly taking the problem off our hands.

I would recommend Colour Smart Solutions to people who are looking for personal, attentive and friendly service.

Yours sincerely
