To whom it may concern

I approached Colour Smart Solutions because we needed a printer/photocopier that would allow us to print our event brochures as we needed them for upcoming events.

Colour Smart Solutions helped me by understanding what we needed to do and recommending one of their printers that would enable us to achieve this.

The result was we no longer needed to send all of our printing to an external printer. This meant we could delay our print run until closer to the event time which allowed for changes to details as they occurred. The other result was this also saved us quite an amount of money.

One thing I liked was their approach. Initially we had some set up issues but Colour Smart Solutions were always available to resolve everything until it was installed as we required it to be for our office.

I found the experience easy and in turn Bryan and his team very easy to deal with.

I would recommend Colour Smart Solutions to people who need print or scan solution of any sort and would like to deal with a company that take the time to understand their clients and what is important to them.

Yours sincerely,
