

To whom it may concern,

I approached Colour Smart Solutions because I was in need of a print solution for our newly opened co-working space. I wanted a quick turnaround and a user friendly product. I knew little about printers so was looking for some professional and honest help. Colour Smart Solutions helped me by providing me with the solution to match my needs.

One thing I liked was their knowledge, professionalism and can do attitude, they went out of their way to ensure I understood what I was buying and how it would fit within our business.

I would and have recommend Colour Smart Solutions to everyone. I am so happy overall with the service, product and after sales experience which still continues.

Regards,
